

CYBER SECURITY

Nama: Fajar Nur Ramadhan

Nim : 202301110019

Kls: ip231

The screenshot shows a browser window with three tabs: "GitHub - sismadi/cybersecurity", "localhost / 127.0.0.1 / sim_sqlinj", and "Area Terproteksi". The current tab displays the content "Selamat datang, user1" and "Ini area terproteksi — hanya setelah login." with a "Logout" link. The Network tab of the developer tools is selected, showing a request for "login.php" with the payload "username=user1&password=pass1". The response status is 200 OK.

Pass salah login gagal

The screenshot shows a browser window with three tabs: "GitHub - sismadi/cybersecurity", "localhost / 127.0.0.1 / sim_sqlinj", and "localhost/cyberlab/login.php". The current tab displays the error message "Login gagal. [Kembali](#)". The Network tab of the developer tools is selected, showing a request for "login.php" with the payload "username=user1&password=adan1". The response status is 401 Unauthorized.

Selamat datang, user1

Ini area terproteksi — hanya setelah login.
